

HD2000

Wall telephone series

3 different models - 3 colors

- With keypad
- With keypad , loudspeaker and 3 one touch memory keys
- Without keypad

The HD2000 comes in **Dark grey, White or Red**

Description

The HD2000 is the third generation of the HD wall telephone series.

- It is **famous for its unique design** with 2 black **latches** that firmly **secures the handset** to the base.
- The new improved design features **2 red leds** located on each side of the base: they draw the attention on incoming calls or inform when voice mail messages are waiting (PABX feature).
- Magnetic hook switch improves **reliability and security**.
- Keypad models come with **data port** and **receiver volume level** adjustment.
- An **optional desk mount kit** provides a simple solution for versatile uses.

Typical applications

HD2000 telephones will perfectly operate in the most demanding conditions such as airports, railway stations, hospitals, museums, public locations, security posts, control rooms, hotels, submarines, ...
