

PLATINE HD

Flush or surface mounting

Typical applications

Designed to be flush mounted, the Platine HD is recommended for use in communications centers, dispatchers consoles and industrial racks.

5 different models - 2 colors

- Keypad, with amplified speaker
- Keypad, with amplified speaker, from 1 up to 4 buttons
- Urgence, without keypad
- Urgence, without keypad, from 1 up to 4 memory buttons
- Urgence with keypad

The Platine HD comes in **Grey** or **Red**

Description

- The **handset and the dialing panel are the only exposed parts** and may be reached easily. The rest of the telephone is mounted below the console surface. Dimensions of the flush mount layout are identical to the ones of the previous model.
- **Surface mount installation** provides a solution in locations where there is not enough depth for flush mount.
- The Platine HD can be **desk or wall mounted**.
- A **flashing ringer led** helps identifying the ringing platine when several are mounted close to each other.
- **Extra buttons (1 up to 4)** can be used either for automatic memory dialing or for operating external features (striker door plates, relays, etc).
- **Hearing aid compatible.**

PLATINE HD

Flush or surface mounting
